FAMILY REUNIONS 💡

BY REGIS MODESTA

Change each group of 10 words below into a "family" of different words (words or proper names that have something in common) by dropping one letter from each word and then rearranging the remaining letters. For example, given the entries HAUNT, HAIRDO, and ADVANCE, you could drop the N from HAUNT to get UTAH, drop the R from HAIRDO for IDAHO, and drop the C from ADVANCE to get NEVADA, all in the category "U.S. states." Can you reunite each family by determining the category for each and unscrambling the 10 entries? If you need help getting started, a list of the four categories appears on page 74.
